"PRO-GRIP" ventosa che equipaggia i sistemi di movimentazione "Kera-Lift" e "Ergo-Lift".

Ottima per il sollevamento anche di materiali strutturati, completa di vuotometro e gomma antimacchia.  
Offre prestazioni superiori con il minimo sforzo di messa in depressione.

Azionamento rapido in 1 secondo, completamente meccanica, non necessita di manutenzioni ordinarie.

Il vuotometro rimane sempre protetto dalla struttura della ventosa, e la sicura non permette lo sgancio imprevisto della leva.

La gomma della ventosa è facilmente sostituibile e dotata di sistema ANTI-ADESIONE accidentale che facilita il rilascio della ventosa dalla piastrina.

Montata di serie su KERA-LIFT e ERGO-LIFT, compatibile con le precedenti versioni.

Certificata CE.

"PRO-GRIP" suction cup that equips the "Kera-Lift" and "Ergo-Lift" handling systems.

Excellent for lifting even structured materials, complete with vacuum gauge and stain-free rubber.

Offers superior performance with minimal vacuum setting effort.

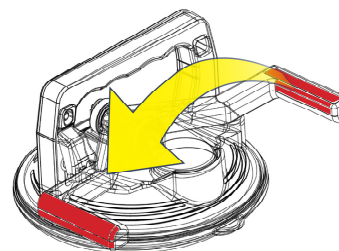

Rapid activation in 1 second, completely mechanical, does not require ordinary maintenance.

The vacuum gauge is always protected by the structure of the suction cup, and the safety device does not allow the unexpected release of the lever.

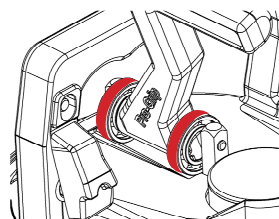

The rubber of the suction cup is easily replaceable and equipped with an ANTI-ACCIDENTAL adhesion system that facilitates the release of the suction cup from the tile.

Mounted as standard on KERA-LIFT and ERGO-LIFT, compatible with previous versions.

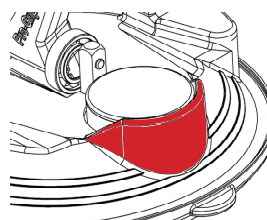

CE certified.

Ventouse "PRO-GRIP" qui équipe les systèmes de manipulation "Kera-Lift" et "Ergo-Lift".  
 Excellente pour soulever même des matériaux structurés, complète avec une jauge de vide et un caoutchouc antitache.  
 Elle offre des performances supérieures avec un effort minimal de mise sous vide.

**Activation rapide en 1 seconde, entièrement mécanique, ne nécessitant pas d'entretien ordinaire.**  
 Le vacuomètre est toujours protégé par la structure de la ventouse et le dispositif de sécurité ne permet pas le relâchement inattendu du levier.  
 Le caoutchouc de la ventouse est facilement remplaçable et doté d'un système d'adhérence ANTI-ACCIDENT qui facilite le détachement de la ventouse du carrelage. Montée de série sur KERA-LIFT et ERGO-LIFT, compatible avec les versions précédentes.  
 Certifié CE.

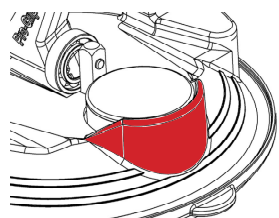

**"PRO-GRIP" Saugnapf, der in die Handhabungssysteme Kera-Lift' und Ergo-Lift' eingebaut ist.**  
 Hervorragend geeignet zum Heben selbst strukturierter Materialien, komplett mit Vakuumanzeige und fleckenabweisendem Gummi.  
 Er bietet überlegene Leistung bei minimalem Kraftaufwand für den Vakuumaufbau.  
**Schnelle Aktivierung in 1 Sekunde, vollständig mechanisch, erfordert keine gewöhnliche Wartung.**  
 Das Vakuummeter ist immer durch die Struktur des Saugnapfes geschützt und die Sicherheitsvorrichtung lässt ein unerwartetes Loslassen des Hebels nicht zu.  
 Das Gummi des Saugnapfes ist leicht austauschbar und mit einem ANTI-ACCIDENT-Haftsystem ausgestattet, das das Lösen des Saugnapfes von der Fliese erleichtert. Serienmäßig montiert auf KERA-LIFT und ERGO-LIFT, kompatibel mit früheren Versionen.  
 CE-zertifiziert.
